Digital Footprint Management

Excellent

Digital Footprint Management; measure your ability to understand the nature of digital footprints, their real-life consequences and how to manage them responsibly.

Those of you with a high Digital Footprint Management score will:

- Understanding the nature of online communication and knowing that everything said and done online leaves a trail known as a digital footprint.
- Be aware of the persistent nature of digital footprints and their real-life consequences, including creating an unintended impact on your online reputation.

We recommend that you have the skills to manage your digital footprint responsibly.

Congratulations! Your performance in this category is very good. Thank you for supporting a solid understanding of Digital Footprint Management well.

Digital Empathy

Requires Attention

Digital Empathy; measures your ability to empathize with the needs and feelings of yourself and others online.

You with a high Digital Empathy score will:

- Be sensitive to the needs and feelings of yourself and others online without even having to interact face-to-face.
- Have the ability to build good relationships with parents, teachers and friends online and offline.
- Resist judgmental mindsets online and have the courage to speak up for those who need help.

Your understanding of the importance of Digital Empathy for yourself or others when using digital media is still minimal; please improve.
